JASMINE MALL

THE CENTER OF INFLUENCE

BAHRIA TOWN, LAHORE

JASMINE MALL will be the central reference point within its surroundings and will give the area and its' residents a new identity. The fusion of old and new, excitement and tranquility, as well as elegant exterior and interior spaces makes JASMINE MALL unique and a landmark destination for both shopping and entertainment.

MESSAGE FROM Q-LINKS REAL ESTATE

BUILDER & DEVELOPER

Bahria Town has steadily grown to become one of the most significant communities in Lahore. The areas and communities in Lahore which have been the center and economic hub in the past are now saturated with high competition and low returns. When it comes to Bahria Town, it is a place where an investment is futuristic and highly valuable. The reason is simply the various untapped opportunities and growing population which is yet to be catered within this vicinity.

We have planned and developed Jasmine Mall keeping in mind luxurious shopping experience for customers and the high return on investment for retailers. When it comes to Pakistan, the retail sector is the third largest sector after agriculture and manufacturing and also the second largest employer, employing over 16 percent of the labor force. It contributes up to 33 percent of the overall service sector and its contribution towards the GDP is 18 percent. The retail sector is valued at USD 42 billion with a robust growth of 5.3 percent which is much faster than the growth of the economy of Pakistan itself. There is a drive for convenient and quality shopping in our country, especially in bigger cities like Lahore.

Jasmine Mall is the first mega shopping mall in Bahria Town which will offer highest standards of quality to the residents of Bahria Town and its surrounding areas. Expansion of Bahria Town and emergence of new societies in the vicinity makes Jasmine Mall a prime attraction for both local and international investors. Come join us and reap the rewards for years to come.

Best Regards

H. Anjum
